

# Quality and Commissioning

## Fulcrum Quality and Commissioning (QCx) Services

Our Core: People, Integrity, and Excellence.

Unique abilities to inspect, test, and operate the world's most complex industrial systems; e.g. Nuclear ECCS/RPS/ARI/PCIS, Refinery Units, and Data Centers.

- **DGS-1: Diesel Generator Support**
- **BEP-2: Busway Excellence Program**
- **TCS-3: Training – Construction Support**
- **LTSA-4: Long Term Service Agreement**
- **SAVE-5: Systematic Approach to Validating Electrical SAVE™ Switchgear**

Broad experience in vulnerability identification, single point failure analysis, and long-term support for all electrical and mechanical system needs.

Fulcrum is a Quality and Commissioning (QCx) company specializing in the comprehensive knowledge, skills, and abilities associated with constructing, commissioning, operating, and maintaining complex critical infrastructure in North America.

“Quality is never an accident; it is always the result of high intention, sincere effort, intelligent direction and skillful execution; it represents the wise choice of many alternatives, the cumulative experience of many masters of craftsmanship.”

*Will A. Foster*
